Whilst every effort is made with the preparation of the timber, knots and other blemishes may bleed through and board shrinkage in the summer may show. This is why we are proud to offer the external upgrade to 'MTX (Medite Tricoya Extreme)'. This amazing product has around 50 years of life and can be added to any building along with the Sadolin Superdec. Come and see this fantastic product at our main showground. Some lighter colours may require 4 coats due to their pigmentation level and this will be charged accordingly.

All sizes are nominal. The metric sizes are the size you should make the base, these sizes do not include cladding and roof overhangs.

You should leave a 200mm minimum gap between base and any obstruction.

Workshop lining and insulation' to the Rook, Raven, Woodpecker and Dove is insulated and cladded with T&G and is face nailed.

All prices include base coat preservative, local delivery and VAT at 20%
